And Natural Cures*

How To Protect Against Stratospheric Aerosol Injections (CHEMTRAILS)

- * The reality of patented technologies and clandestine operations of government programs such as stratospheric aerosol injections (SAI – the politically correct way to say chemtrails) and HAARP
- * The dangers of 5G technology and other sources of harmful electromagnetic Fields (EMFs) such as WiFi and cell phone radiation exposure
- * How to detect heavy metals in the body
- * 3 Pillars of Detox - How heavy metal detoxification removes mercury, cadmium, aluminum and other metals from the body using holistic principles.
- * How orgonite and orgone energy transmute dangerous high-frequency radiation into healthy, negatively (-) charged ions

Satellite view of chemtrails and scalar wave patterns over the South Atlantic. If it's just condensation trails, why didn't we have any of this in 1960s, 70s, etc. satellite imagery?

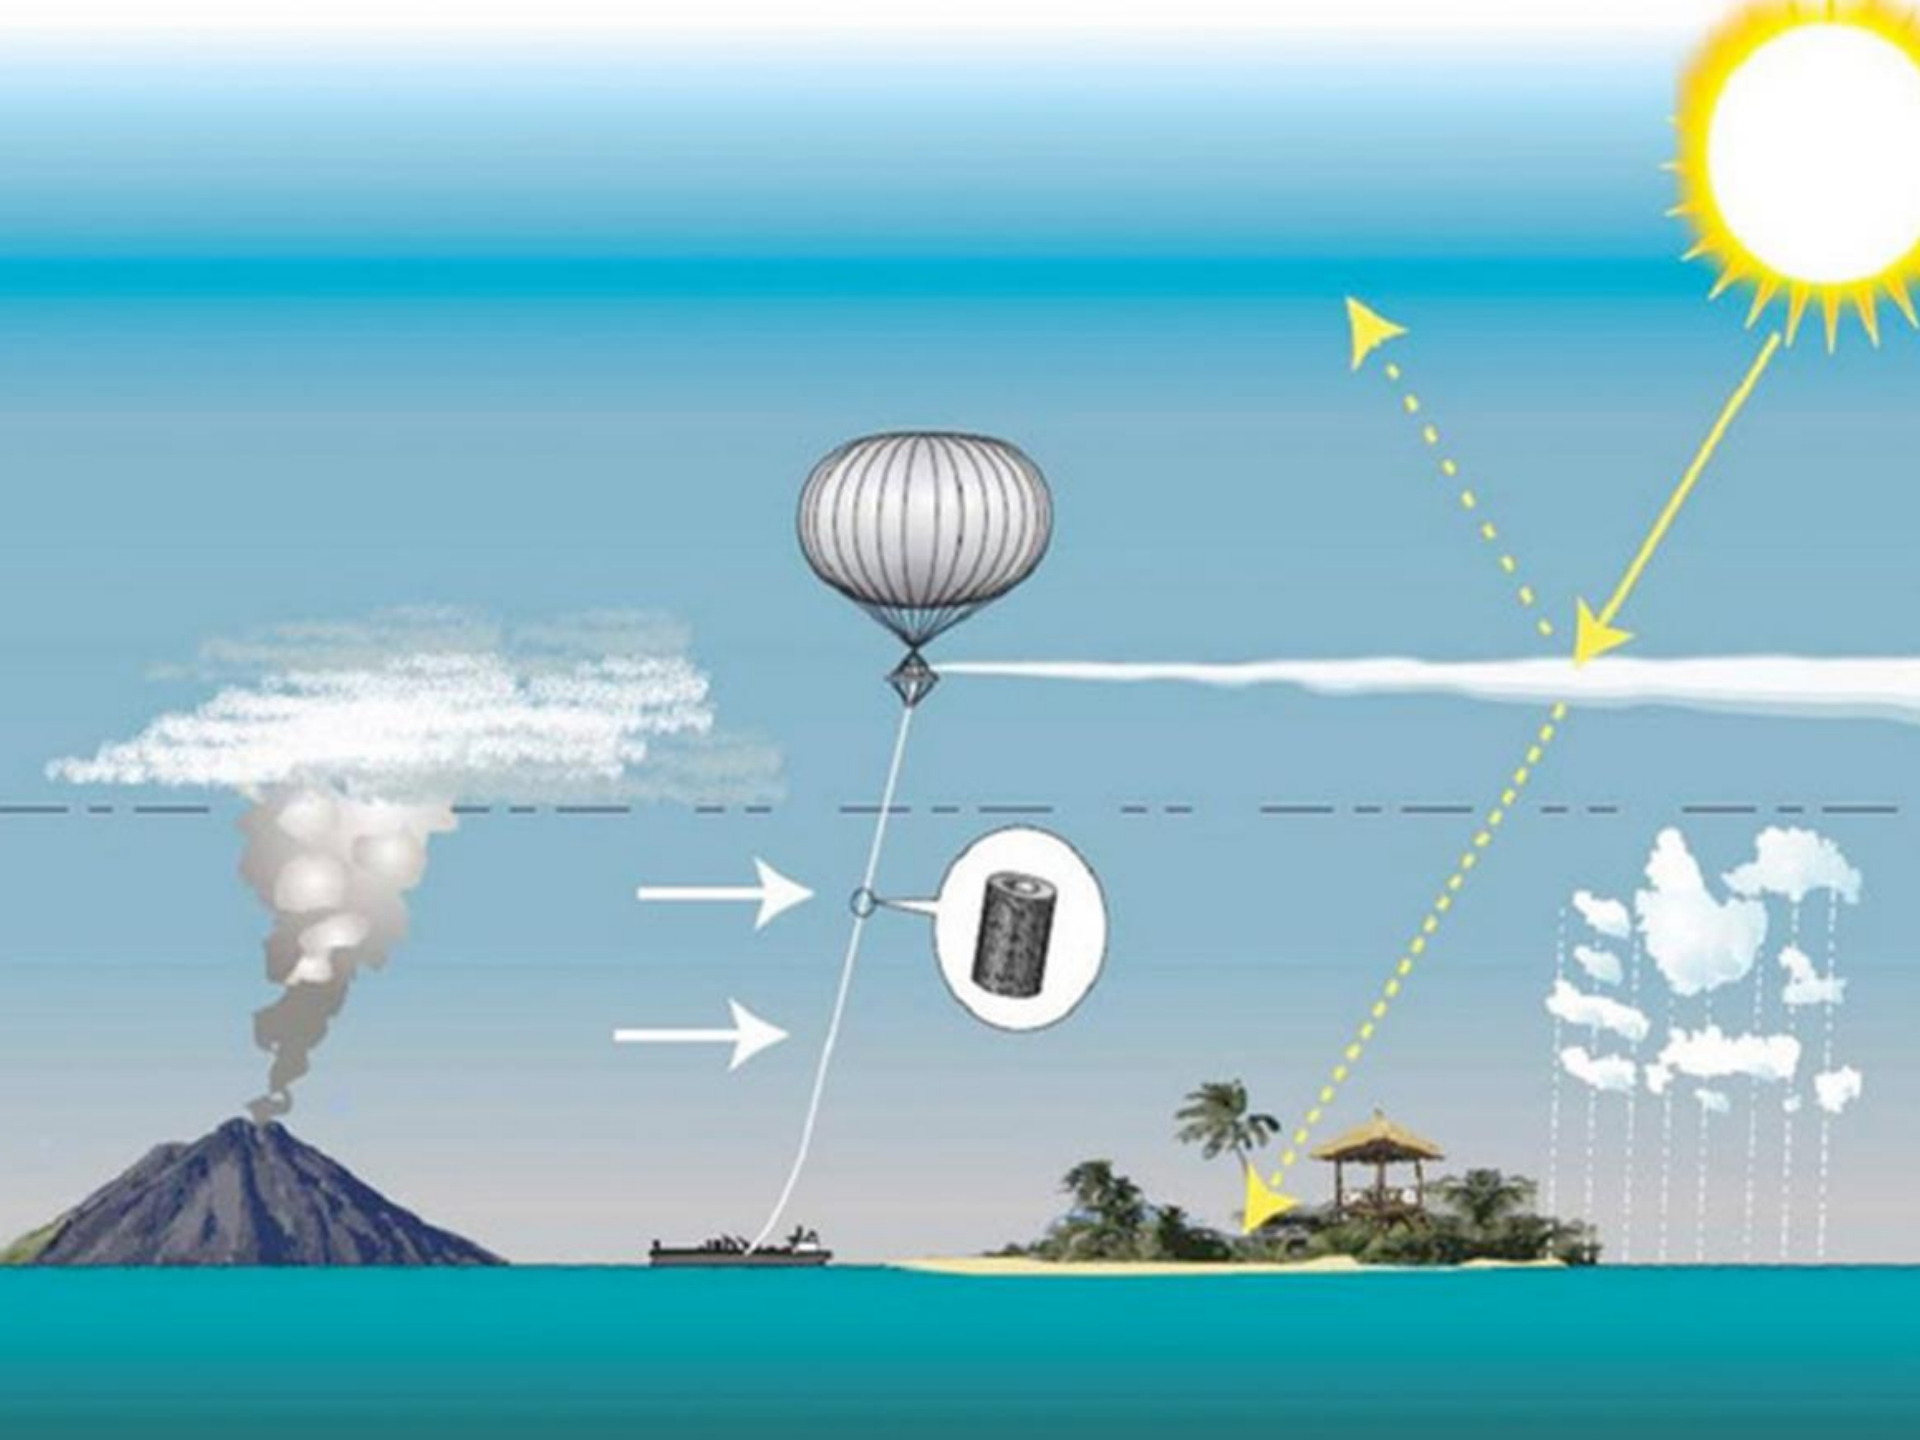

Los Angeles, Calif. Feb. 6, 2012 10:44 AM Massive HAARP clouds.

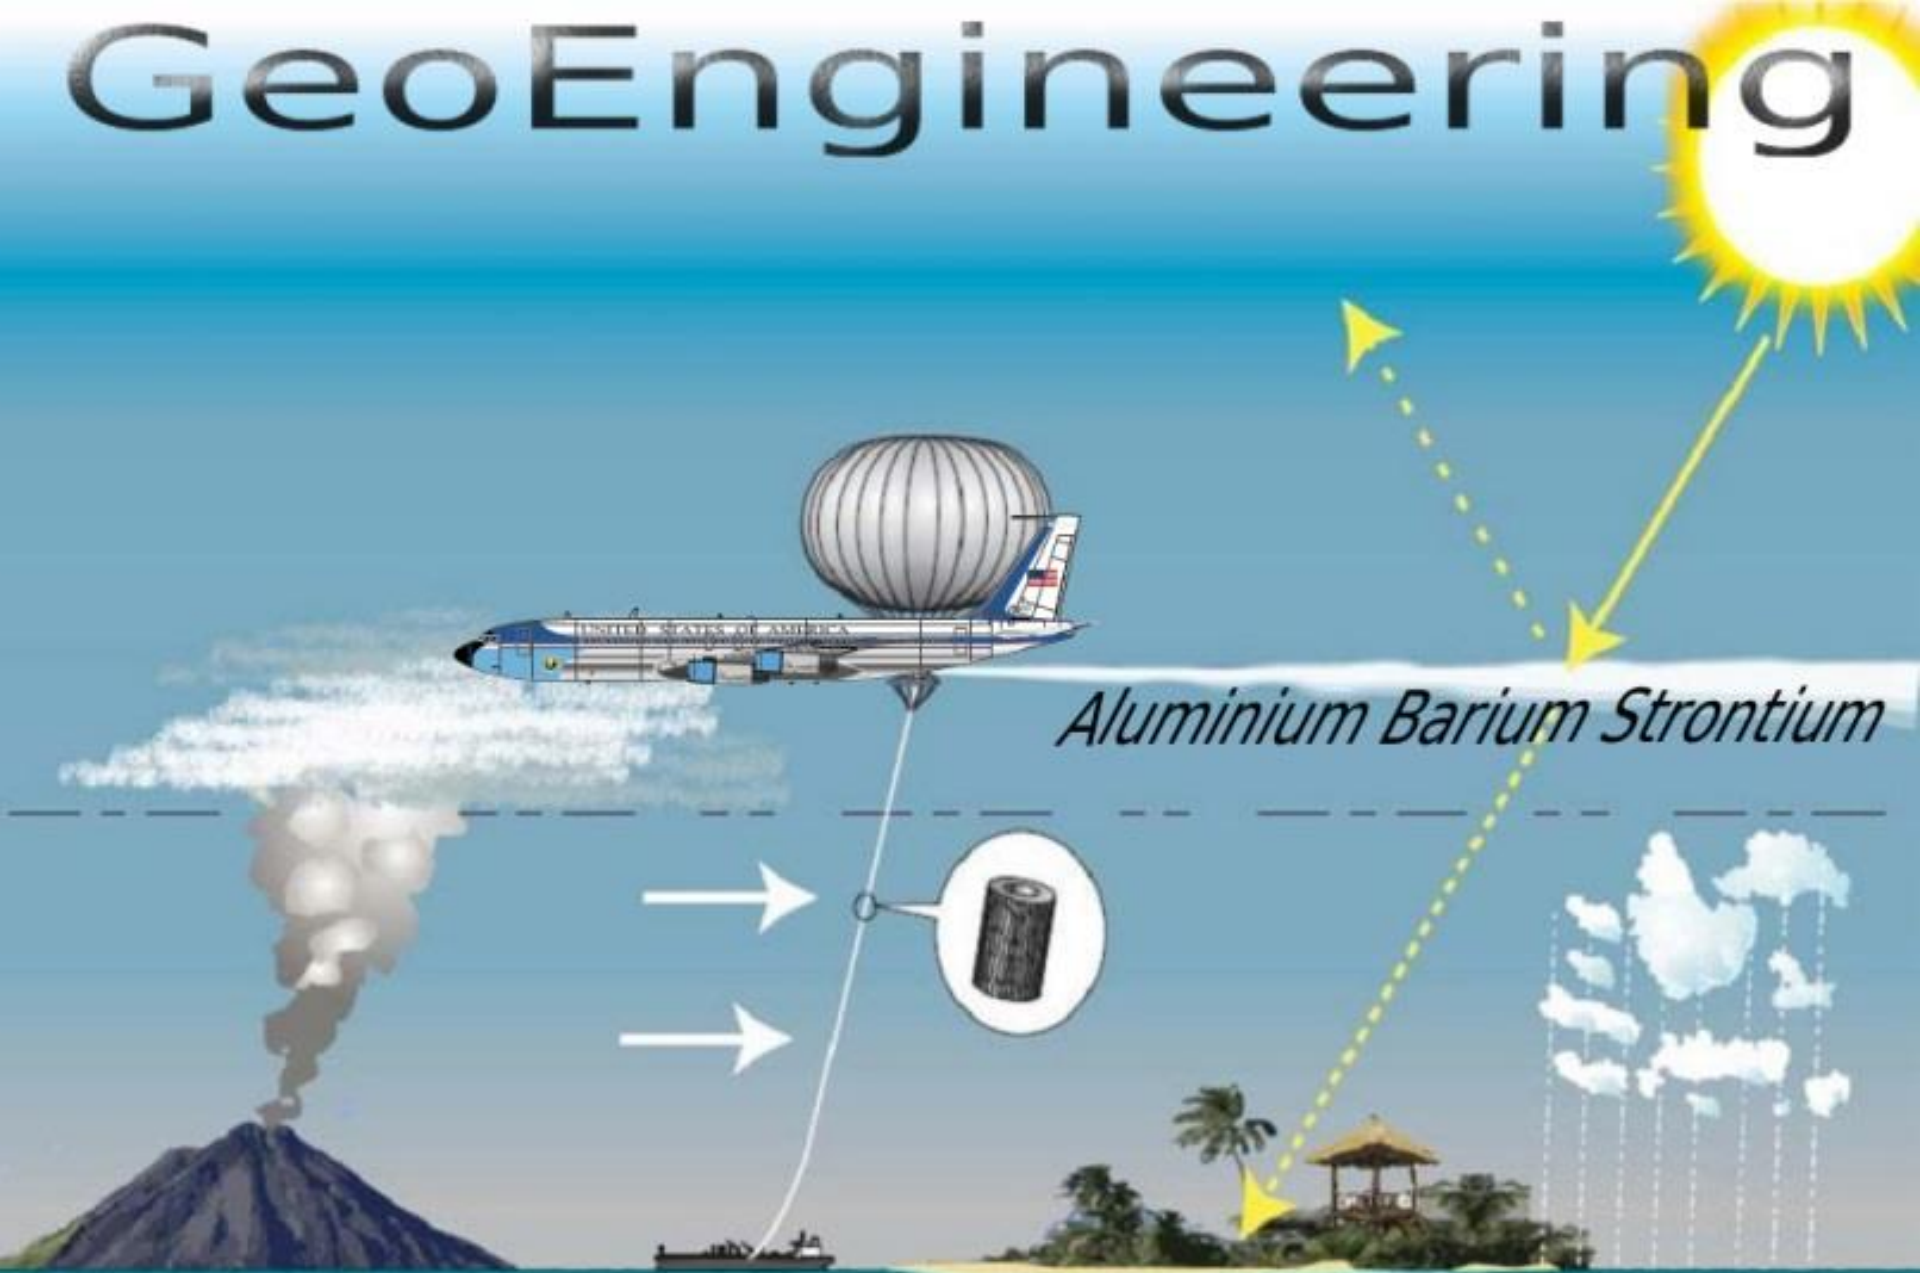

High-Frequency Active Auroral Research Program

Gakona, Alaska**

GeoEngineering

The image is a composite. The top half shows a bright rainbow stretching across a blue sky. In the upper left, a dark silhouette of an airplane is shown in flight, leaving a white contrail. The bottom half of the image is filled with a dense, chaotic field of blue, needle-like or fibrous structures, possibly representing a microscopic view of a material or a biological structure. A semi-transparent grey box with a dark blue border is overlaid on the bottom right, containing white text.

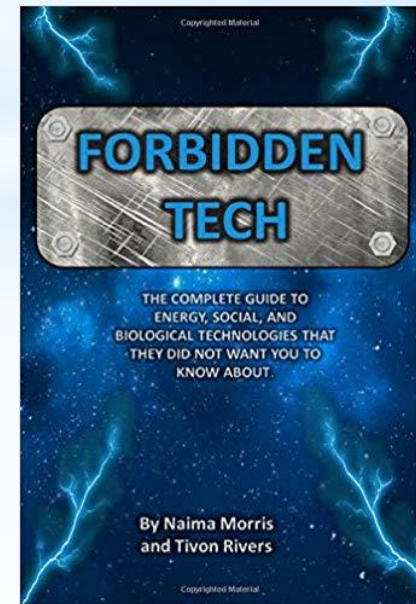

“Strontium-90 is chemically similar to calcium, and tends to deposit in bone and blood-forming tissue (bone marrow). Thus, strontium-90 is referred to as a “bone seeker.” Internal exposure to Sr-90 is linked to bone cancer, cancer of the soft tissue near the bone, and leukemia.”

In addition to the substances already mentioned, several laboratory analyses reveal more of the composition of chemtrails:

**Various Bacilli and Molds
Human white Blood Cells – restrictor
DNA gene
Zinc Cadmium Sulfide (carcinogen)
Arsenic
Cadmium
Calcium
Chromium
Ethylene Dibromide
Lead
Mercury
Mycoplasma
Nano-Aluminum-Coated Fiberglass
Nitrogen Trifluoride Known as CHAFF
Nickel
Polymer Fibers**

Stratospheric Sulfate Aerosols Geoengineering (SAG-SRM)

The ability of stratospheric sulfate aerosols to create a global dimming effect has made them a possible candidate for use in geoengineering projects to limit the effect and impact of climate change due to rising levels of greenhouse gases. Delivery of precursor sulfide gases such as hydrogen sulfide (H₂S) or sulfur dioxide (SO₂) by artillery, aircraft and balloons has been proposed. (click image for more...)

Abstract

The embodiments of the chaff dispensing system disclosed in the present application use a slurry of Freon and chaff particles and thus permits hydraulic and pneumatic principles to be readily employed to ease the handling and dispensing of the chaff. The flow rate of the slurry can be precisely controlled to obtain chaff clouds of desired densities. Once the slurry is dispensed into the atmosphere at altitude, the highly volatile Freon vaporizes so that it does not adversely affect the formation of a cloud by the chaff particles. The Freon and chaff particles have substantially the same density to minimize settling or separation by the action of gravity, and the particles will

National Toxicology Program: Peer & public review of cell phone radiation study reports

Breaking News

Mark Hertsgaard and Mark Dowie, "How Big Wireless Made Us Think That Cell Phones Are Safe: A Special Investigation." *THE NATION*, March 29, 2018.

The disinformation campaign—and massive radiation increase—behind the 5G rollout.

NTP Should Analyze Overall Tumor Risk

In my written submission to NTP about the cell phone radiation studies, I recommended that NTP analyze the overall tumor risk from cell phone radiation exposure. After watching the three-day expert review of these studies, I restate this recommendation.

While it is useful to examine what happened to the trees in the forest in this experiment (e.g., the increased risk of a specific tumor developing in male rats from GSM exposure), it is essential to examine what happened to the forest (e.g., the overall risk of a male rat developing a malignant tumor from cell phone radiation exposure).

NTP should test the null hypothesis that lifelong exposure to non-thermal levels of cell phone radiation does not increase the incidence of cancer.

There are several strong justifications for conducting this analysis.

First, a 5-year, \$5 million Air Force study found low incidences of various types of tumors in male rats exposed to microwave radiation. In that study, the exposed rats were three times more likely to get cancer than the control rats. The study employed much lower intensity microwave radiation than the NTP studies.

Joel M. Moskowitz, Ph.D.
Director
Center for Family and Community Health
School of Public Health
University of California, Berkeley

WHAT IS 5G TECHNOLOGY?

5G is the coming fifth-generation wireless broadband technology based on the IEEE 802.11ac standard. ... 5G will provide better speeds and coverage than the current 4G. 5G operates with a 5Ghz signal and is set to offer speeds of up to 1 Gb/s for tens of connections or tens of Mb/s for tens of thousands of connections.

3. Prevent – FOCUS: Diet & Supplements

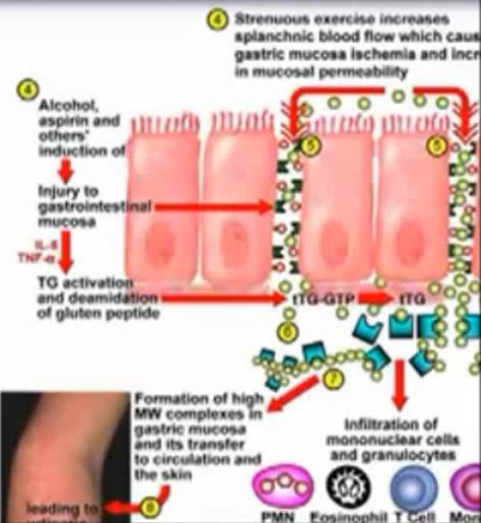

Step 1: Prepare

Focus: Digestion & Absorption

Food Allergy Gluten (

Step 1 – PREPARE (Digestion & Absorption)

LEAKY GUT

Toxins from inside the intestine leak out and flow to The Liver (the rest exit the body via the feces).

Leaky gut is a situation that's common in people with digestive issues.

When The Liver is healthy these toxins are transformed into an intermediary substance (Phase I Liver Detox) and excreted through the urine and bile (Phase II Liver Detox).

Naturally, we'll want to repair a leaky gut by cleansing, protecting and nourishing our digestive tract.
