Para-Chord

Para-Chord is a combination homeopathic formula for symptoms related to worms, specifically helminth parasites such as round worms, pin worms, thread worms, tape worms and flukes. Though based in the intestines, these parasites may travel and lodge in other organs and tissues. Worms tend to proliferate and reappear in terrains hospitable to them, including an excess of mucus or lactic acid. The homeopathic elements of **Para-Chord** were chosen to address the symptoms of worms and the imbalanced terrain in which they thrive.

For symptoms such as bloated, distended abdomen; abdominal pain; itching anus; flatulence; foul breath; increased appetite; diarrhea; mucous diarrhea; itching inside nose; irritability; teeth grinding; and worms in stools.

Ingredients and Symptomatology

Abrotanum 12X (Southernwood)

Unexplained weight loss with ravenous hunger, loss of appetite, sunken eyes, flatulence, joint pain, itching skin.^{1(p7), 2 (p1-2)}
